

Prairie Livestock Expo Pork Quality Carcass Competition 2024

Dear Manitoba Hog Producer,

Prairie Livestock Expo 2024 – at the Victoria Inn Hotel and Convention Centre – is just around the corner on December 11, 2024. Of course, this means the Pork Quality Carcass Competition committee is gearing up for another great competition. But this competition is only successful with your involvement.

The Pork Quality Carcass Competition is the event that celebrates excellence in pork production by recognizing the “Best of the Best.” Here, hog producers from across Manitoba come together to compete in what has become the largest hog carcass competition in North America – and possibly the world.

The Carcass Competition is one of the highlights of the Prairie Livestock Expo. The prize money, the money raised from sponsors, is donated to a variety of charities across Manitoba selected by the winning operations. At the last competition \$23,250 of sponsorship money was donated to charity. This was in addition to the donation of the meat from all the carcasses to Harvest Manitoba and Siloam Mission for distribution to the local food banks in communities throughout Manitoba.

The Pork Quality Carcass Competition committee would like to thank you in advance for your involvement and support of our industry and local communities. The success of this event is based on your continued involvement.
